- + 6.55 mm thick
- + 25 jewels
- + Frequency of 28,800 vph (4Hz)
- + 167 components
- + Polished steel Swiss lever escapement

NO-RING®

FORGET EVERYTHING YOU KNOW ABOUT WATER RESISTANCE

The entirely in-house made case represents an authentic watch exterior complication in its own right and a world-exclusive feature. MAURON MUSY is the only watch brand in the world to have developed a mechanical gasket-free water-tightness system completely free of the costly maintenance associated with polymer ageing. This patented nO-Ring® method of mechanical gasket-free water-resistance, featuring a design whose very essence is intrinsically linked to the technology involved, requires 36 highly technical elements and ensures a waterproof seal guaranteed to 300 metres.

SKELETON ARMURE

The Skeleton Armure MU05 boasts four successive levels of dials, formed by a bezel, a flange, and two levels of dials with different treatments: one in NAC platinum alloy, the other in titanium. To highlight this deep dive into the heart of the MM01-SK movement, Maaron Musy has decorated the latter with an abundance of relief engravings: the minute circle, the individual serial number, the brand's emblem, and its own mantra: 'Swiss Crafted'. Each surface features its own specific finish – polished, satin, angled, sunburst, or frosted. Every single ray of light and reflection captured within the timepiece's 44-millimetre diameter is harnessed to maximum effect.

BEYOND SWISS MADE

Maaron Musy watches are not stamped with the inscription 'Swiss Made', but instead proudly bear the 'Swiss Crafted' label certifying the 100% of the watch has been developed, manufactured and crafted in Switzerland.

With 'Swiss Crafted', Maaron Musy is defending far more than a label, but indeed a full-fledged industrial code of ethics.

MU04 GMT SPORT

INSPIRED BY THE PAST. SHAPING THE FUTURE.

Entirely crafted in titanium and recognisable by its ultra-mechanical DNA, this GMT SPORT model is the ideal avant-garde partner for all settings. Its industrial design and brushed finishes endow it with a unique style that goes equally well with a driver's helmet or a gentleman's suit.

The hybrid ceramic and titanium bezel features a 24-hour scale enabling dual-time readings, while the colour difference marks the boundary between day and night.

FORGET EVERYTHING YOU KNOW ABOUT WATER RESISTANCE

The entirely in-house made case represents an authentic watch exterior complication in its own right and a world-exclusive feature. MAURON MUSY is the only watch brand in the world to have developed a mechanical gasket-free water-tightness system completely free of the costly maintenance associated with polymer ageing. This patented nO-Ring® method of mechanical gasket-free water-resistance, featuring a design whose very essence is intrinsically linked to the technology involved, requires 36 highly technical elements and ensures a waterproof seal guaranteed to 300 metres.

ARMURE MU03

INSPIRED BY THE PAST. SHAPING THE FUTURE.

Robust, sporty, and sleek, yet also refined, intriguing, sophisticated: the new Armure MU03 is world of its own. Equipped with nO-Ring® mechanical direct-seal gasket-free water-tightness technology, the latest addition to Mauron Musy is not only water-resistant to 300m, but also splash-proof and easy to handle under water. An avant-garde partner ideal for all settings, including the most hostile environments.

Entirely attired in anti-allergenic titanium, immediately recognisable by its industrial design and brushed finishes, it is just as well teamed with adventurers' gear as with an evening outfit. This intrinsically noble model houses an exclusive Manufacture movement. The Armure MU03 is undoubtedly the first watch with a five-year maintenance-free guarantee.
